Office Action Summary		1	10/621,390		SHIN ET AL.				
		E	xaminer		Art Unit				
			indy S. Rao		2613				
The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply									
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).									
Status									
1) Respons	sive to communication(s) file	ed on 27 Octo	ber 2005.

DETAILED ACTION

Response to Arguments

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action as filed on 10/27/05 is persuasive and, therefore, the finality of that action is withdrawn.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- (e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 49-55 are rejected under 35 U.S.C. 102(e) as being anticipated by Ratakonda.

Ratakonda discloses apparatus for processing video data comprising (Ratakonda: column 15, lines 30-65): a motion intensity level calculation unit calculating motion intensity levels indicating a motion intensity (Ratakonda: column 11, lines 5-20) of respective inter frames included in an input video data by using motion compensation information of the respective interframes (Ratakonda: column 13, lines 35-60; column 10, lines 1-43); and a histogram calculation unit calculating a histogram indicating frequency of the respective motion intensity levels based on the motion intensity levels of respective inter frames (Ratakonda: column 14, liens 30-40), as in claim 49.

Regarding claim 50, Ratakonda discloses that the histogram includes a plurality of ratios, a respective ratio being a number of inter frames having the respective motion intensity levels to a number of all inter frames included in the input video data (Ratakonda: column 8, lines 30-65), as in the claim.

Regarding claim 51, Ratakonda discloses wherein the motion intensity level is calculated by using motion compensation values of respective predetermined sized blocks included in an inter frame (Ratakonda: column 11, lines 5-10; column 14, lines 30-35), as in the claim.

Regarding claim 52, Ratakonda discloses wherein the motion intensity level is a ratio of a number of blocks having zero motion compensation values to a number of all of predetermined sized blocks included in an inter frame (Ratakonda: column 14, lines 35-45).

Regarding claim 53, Ratakonda discloses a grouping unit dividing a video stream into at least one video data, selecting the input video data among the at least one video data and outputting the input video data to the motion intensity level calculation unit (Ratakonda: column 6, lines 45-55).

Regarding claim 54, Ratakonda discloses a quantization unit quantizing the motion intensity levels and outputting the quantized motion intensity levels to the histogram calculation unit (Ratakonda: column 14, lines 30-35).

Regarding claim 55, Ratakonda discloses a grouping unit divides the video stream by using a scene cut detection algorithm (Ratakonda: column 4, lines 45-65), as in the claim.

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andy S. Rao whose telephone number is (571)-272-7337. The examiner can normally be reached on Monday-Friday 8 hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mehrdad Dastouri can be reached on (571)-272-7418. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
